“ I worked with Charlie at Marotta Controls. He was a joy to work with and always had a joke to tell. He was also an expert in his field and we still have a reference book he put together for us on how to process certain critical Navy parts. My condolences to his family.

“ Charlie's jokes always made me chuckle. (I wish I could remember the punchline to the skunk joke.) GAIT will feel somewhat dimmer without him around...but we can be thankful for the years of dedication and all the hard work that he put in to the program to help make it what it is today. Thank you Charlie! We'll see you again...
