“ *Lawn chairs Marshmallows, Grahm Crackers, and Chocolate. Food and drink Afterbite or other anti-itch cream Baseball and glevos, or football Bring drinking water Bring a Yard Guard type of bug spray to spray around your camp site. My experience is this is a lot more helpful than the bug away candles. Extra batteries Sun lotion If you are going to have a camp fire and flashlights you can leave the lantern at home. There should be a pit for a fire with a grill at the campground so you won't need to bring a BBQ grill. If your worried that the BBQ pit may be to dirty cover it with the foil you are bringing. Bring cooking spray and spray the foil right before you put the food on it so your food doesn't stick to the grill. You should be able to get wood at the campsite (buy it or find it on the ground). Buying it will be more expensive than bringing your own. You need to decide if you want to pay the extra money to save the hassle of bringing wood and save space in your car. I personally would leave the charcoal at home and just cook over the wood fire.*

“ *So sorry for you loss. My thoughts and prayers are with you and your family.
God has a reason for allowing things to happen. We may never understand His wisdom, but we simply have to trust His will.
God Bless...*
