“ *How do you say farewell to your Big Brother, I can't find the words if they even exist. Memories to last a lifetime. So many that it would take a book to write them all. He was a kind,generous, hard working man. Absolutely adored his daughter. Loved his family and his friends. His absence on this earth with greatly be missed. I don't think he knew the impact he had on some of our lives! SIP My Brother. Please give our family of Angels a kiss and hug from me. Until we are once again together I love you xoxo's Your Sister Patti*
